PROFILE

Computer Science graduate, eager to learn software-related skills, with a strong background in Computer Science and Engineering at one of the top universities in Turkey. Thriving to advance in frontend development/software development.

WORK EXPERIENCE

05/2025 - Present **Elekon Smart Building Technologies, Ankara, Turkey – Full time:**

Frontend Development –

Development of user-interfaces for long-range IoT communication and a customized file management system, using **NextJS via TypeScript**. For the development process, **the protocols of MQTT and LoRaWAN** were used.

11/2024 - 04/2025 **RMA Yapı, İstanbul, Turkey – Freelance:**

Implementation of a Custom CRM (Customer Relationship Management) System for RMA Yapı Team –

The Five Bays Resort Hotel in Mersin, Silifke, needed a customizable and functional CRM system. Responsibility was to develop the CRM modules on the frontend using **ReactJS via TypeScript** and contribute to the **unit tests** and **functionality tests** of the modules.

08/2023 - 09/2023 **SunExpress, Frankfurt, Germany - Internship:**

Testing & Development (Frontend) for In-Flight Retail Ecosystem –

Contribution to the analysis team with testing and development on the BackOffice Website and EPOS Mobile Application

08/2022 - 09/2022 **Simsoft Computer Technology, Ankara, Turkey - Internship:**

Game Development via Unity (C#) – Development of a hyper-casual videogame including UI design, gameplay mechanics and testing, and development of UI interactions of a puzzle game

EDUCATION

09/2020 - 06/2024 **Bilkent University, Computer Science, Ankara, Turkey**

Relevant Projects:

- Developed unI0n mobile app for Android OS, in *Algorithm & Programming*
- Object Oriented Software Engineering Project: WebApp for Erasmus Application
- Senior Design Project: Management system of rental houses as a service for the Government of Turkey

09/2011 - 06/2020 **TED Ankara College – Private Middle & High School, International Baccalaureate Degree, High Level Math & Physics; GPA 86/100**

RESEARCH EXPERIENCE

06/2019 - 08/2019 **GEMSEC, Genetically Engineered Materials Science and Engineering Center, University of Washington, Seattle, WA, USA:**

Biomimetic Surface Design – Quantitative evaluation about hydrophobicity of plant leaves via contact angle determination

CERTIFICATES

07/2024 Only JavaScript, “Frontend Developer Trainee Programme”

05/31/2019 International Youth Neuroscience Association, “Psychological & Neurological Experiments Applied on Humans” (*Genovese Syndrome*)

07/10-12/2019 Abalone Summer Science Camp for High School Students, **Univ. of Washington, Seattle, WA, USA**; Academic Enrichment Program on Molecular Biomimetics, Computational Modeling, and AI; organized by **GEMSEC/UW-USA**

KEY SKILLS

- Software Skills: NextJS, ReactJS, JavaScript, TypeScript, C#, Requirements Engineering, Unified Modeling Language (UML), Design Patterns.
- Hands-on Instrumental Skills: CAG100 Goniometer (with FTA32 Program); SEM [JEOL, JSM-7000F] (Field Emission Scanning Electron Microscope).

LANGUAGE

Turkish – Native; ***English***: Full professional proficiency; ***French***: Elementary proficiency

ACTIVITIES & INTERESTS

English voice-acting for an RPG video-game character (freelance); Choir (Tenor); Basketball (licensed, 2013-17); Travelling.
